Boskalis start onderzoek naar ultragroot Dockwise-schip

Houston, 6 mei 2014

Koninklijke Boskalis Westminster N.V. (Boskalis) heeft tijdens de Offshore Technology Conference in het Amerikaanse Houston bekendgemaakt dat het een onderzoek is gestart naar een nieuw ultragroot V-klasse schip voor zwaar zeetransport (HTV). De Dockwise Vanguard, die begin 2013 in de vaart werd genomen, is al 's werelds grootste HTV in de V-klasse met een laadvermogen van 117.000 MT en een dekoppervlak van 270 bij 70 meter.

De zandmotor is een prachtige showcase, vanuit Zuid-Nederland is het concept getoond, dat gaan we verder

24 April 2014

IHC Merwede strengthens presence in North America

Press release

IHC Merwede has strengthened its North American operations and reinforced its presence in Houston, Texas with a strategic appointment at the IHC Merwede America Corp. office.

Thomas Agnevall is the new Vice President Business Development and will be based at the company's Houston office. He brings several years of expertise to the role. Already well known within the maritime industry in the city, Mr Agnevall has served as Vice President for Vryhof Anchors for the past ten years, where he was responsible for global business development.

CEDA: Central Dredging Association

- Independent, international organisation for the **dredging and maritime construction industry**
- Source for **objective technical information**
- **Knowledge database** for academia, professionals, policy makers and other people involved
- An organisation that promotes dredging as an instrument for **sustainable development**
- Part of WODA (World Dredging Association) and member of its **mondial network**

CEDA: Central Dredging Association

- Offers an **extensive network of all parties involved with dredging**: government, universities, industry, contractors, engineering consultancies and research institutes in the Netherlands and abroad
- Offers the opportunity **to develop and substantiate new policies**
- Offers the opportunity to **present yourself** to the CEDA members (> 150 corporate members)
- Offers easy access to the **latest information** on dredging and marine infrastructure

Visit the CEDA website for more information

www.dredging.org

CEDA: overview of members

CEDA: Activities

Recurring activities:

- Biannual CEDA Dredging Days (>200 visitors)
- National Section Meetings (50-100 visitors)
- DPC Magazine (> 4000 readers)

Provision of independent expert input for:

- London Convention
- OSPAR Convention
- EU for implementation of the WFD & MSFD
- ICPDR Danube Commission

Young CEDA

- **Represents interests** of young people within CEDA
- Ambassadors of the dredging industry: **actively attract, involve and bind young members**
- **Platform** for young CEDA members to launch new ideas
- Organisation of activities provides a platform **to network with other young people** and **to get involved with more experienced professionals**
- Organisation of **activities** for students and young professionals:
 - Excursion to Amazone harbour (March 2013)
 - Seminars (2014: Antwerp, Delft, Hamburg)
 - Networking event (WodCon XX in Brussels)

Westminster NV,
The Netherlands

**Christoph
Tiggesbäumker**
Hamburg Port
Authority, Germany

Young CEDA

- International commission (NL, B, UK, G)
- Mailing list >100 people
- Every national section is represented
- Young CEDA representative in every CEDA commission
- 2 x per year meeting
- 1 - 2 activities per year per country
- Continuous input to CEDA and her commissions
- LinkedIn group
- Education via webinars

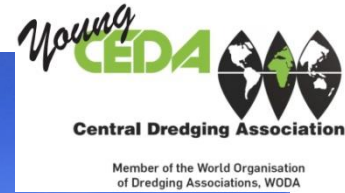

Sponsors

Thanks to:

- CEDA en CEDA Netherlands
- TU Delft
- Hogeschool Rotterdam and Haagse Hogeschool
- Presenters and their employers
