- offers the opportunity to **present yourself** to the CEDA members (> 150 corporate members)
- offers easy access to the **latest information** on dredging and marine infrastructure

CEDA website: www.dredging.org

The image displays a comprehensive collection of logos for various maritime and dredging organizations, arranged in a grid. The logos represent a wide range of entities, from international associations and research institutions to national authorities and commercial companies. Notable logos include AON, Deltares, Dredging International, and many others, each with its own unique branding and color scheme. The logos are organized into rows and columns, providing a visual overview of the industry's diverse landscape.

CEDA: activities

Recurring activities:

- biannual CEDA Dredging Days (> 250 visitors)
- national section meetings (50-100 visitors)
- DPC magazine (> 4,000 readers)
