

Young

CEDA

Central Dredging Association

Member of the World Organisation
of Dredging Associations, WODA

Young CEDA represents youthful CEDA members all over the world. It offers a unique network of young professionals in the field of dredging, representing research institutes, universities, industry, governmental authorities and consultants. Young CEDA gives you the opportunity to exchange ideas, gain new (technical) insights and expand your network with valuable new contacts in Europe but also across the planet.

Our Mission Statement

Young CEDA dedicates itself to creating a platform for young members to express and present themselves whilst allowing for the opportunity to interact with older or more experienced fellow dredging enthusiasts and colleagues.

Furthermore, Young CEDA functions as a challenger and critical observer of the CEDA community and Board. Young CEDA actively participates in the organization of the CEDA Dredging Days, seminars and national meetings but also organizes its own activities.

Above all, Young CEDA helps to carry out the CEDA mission and objectives and is an ambassador for the dredging profession in general.

And last but certainly not least, Young CEDA wants you to have fun!!

As Young CEDA, we want to involve young members in the CEDA organization. We do this by organizing activities for our members such as technical excursions and seminars. During the seminars, we discuss experiences from other young members but also tap in on the extensive knowledge of our more experienced colleagues. In this way we keep CEDA alive and up-to-date.

Introducing: Young CEDA Chairman

Arjan de Heer (Maritime Consultant at Royal HaskoningDHV, the Netherlands):

“Young CEDA is dedicated to informing students and young professionals and showing them the opportunities to work in the dredging and associated fields. Together with the Young CEDA Commission it is exciting to organize new and interesting activities that will involve as many young members as possible while at the same time introducing them to CEDA.”

Full introductions to the other members of the Young CEDA Commission can be found on the CEDA website on the Young CEDA webpage (www.dredging.org).

Together with the participation of our members, we ensure that Young CEDA remains a vital and dynamic section of the CEDA organisation. Here are some ways that you can get involved:

Visit the Young CEDA webpage and catch up on our latest activities

Join us on technical excursions and seminars

Enrol on the Young CEDA mailing list for newsletters and upcoming events

Network at Young CEDA meetings and listen to talks by young and experienced professionals

Most importantly, your ideas and feedback make Young CEDA even better!

Join us!!!

For more information on Young CEDA visit our dedicated pages by following the Young CEDA link on www.dredging.org.
