of Dredging Associations, WODA

Our Mission Statement

Young CEDA dedicates itself to creating a platform for young members to express and present themselves whilst allowing for the opportunity to interact with older or more experienced fellow dredging enthusiasts and colleagues.

Furthermore, Young CEDA functions as a challenger and critical observer of the CEDA community and Board. Young CEDA actively participates in the organization of the CEDA Dredging Days, seminars and national meetings but also organizes its own activities.

Above all, Young CEDA helps to carry out the CEDA mission and objectives and is an ambassador for the dredging profession in general.

And last but certainly not least, Young CEDA wants you to have fun!!

Young CEDA represents youthful CEDA members. It offers a unique network of young professionals in the field of dredging, representing research institutes, universities, industry, governmental authorities and consultants.

As Young CEDA, we want to involve young members in the CEDA organization by organizing activities such as technical excursions and seminars.

Some recent Young CEDA events are:

- **September 2017, Marken, The Netherlands:** Excursion to the 'Markerwadden'
- **March 2017, Knokke, Belgium:** Excursion 'Sand banks supplementation'
- **February 2017, London, UK:** Seminar 'Thames Dredging Opportunities – Perspectives from Regulators, Environmentalists, Contractors and Surveyors'
- **November 2016, Hamburg, Germany:** Excursion to Port of Hamburg
- **October 2016, Lisbon, Portugal:** Young CEDA Pitch Talks during Iberian conference 'Dredging for Sustainable Port Development'

Introducing: Young CEDA Chairman

Peter De Looze

(Technical Superintendent / Co-owner HAL Maritiem b.v., The Netherlands)

Young CEDA is dedicated to informing students and young professionals, about dredging developments, and showing them the opportunities to work in the dredging and associated fields. Together with the Young CEDA Commission it is exciting to organize new and interesting activities that will involve as many young members as possible while at the same time introducing them to CEDA.

Full introductions to the other members of the Young CEDA Commission can be found on the CEDA website on the Young CEDA webpage (www.dredging.org).

Here are some ways that you can get involved:

Visit the Young CEDA webpage and catch up on our latest activities
www.dredging.org/young-ceda/young-ceda

Join us on technical excursions and seminars

Enrol on the Young CEDA mailing list for newsletters and upcoming events - youngceda@dredging.org

Network at Young CEDA meetings and events
