FREE half-day technical seminar

THE USE OF DREDGED MATERIAL
ISSUES, CONSTRAINTS AND MOVING FORWARD

Tuesday 8th May 2012 at 14:00hrs

To be held at the
INSTITUTION OF CIVIL ENGINEERS

It is widely recognised that dredged materials are valuable resources that can be used to provide benefit in environmental and engineering programmes conserving primary resources such as mined sand and gravel. The current emphasis on sustainable development reinforces the importance of this approach. Extensive experience of using dredged material now exists from large scale uses of dredged material for habitat creation to smaller projects that have demonstrated effective use of dredged material for wildlife and amenity. Has this knowledge led to an increase in the number of projects using dredged material beneficially or are there issues and barriers that are proving restrictive?

What is the current legislation? What should operators be currently aware of and what are the challenges and barriers they face in using dredged material? The CEDA half-day seminar aims to discuss these issues, identify where and how solutions have been found and highlight the current initiatives underway to promote the use of dredged material.

Who should attend?
The seminar is aimed at:
• commissioners of large- and small-scale dredging and maritime construction projects
• practitioners and scientists representing project owners
• professionals from marinas, coastal and environmental authorities
• dredging contractors
• consultants
• researchers

The seminar programme will include presentations from the following speakers and includes Q & A sessions. In addition, there will be opportunities for informal discussions and networking during a tea break.

CEDA Non-Member Event Mailing List
If you do not currently receive event notifications from CEDA and would like to be added to the event mailing list please contact cheryl.honess@ice.org.uk. Please note that your information will not be shared outside of the CEDA and you will only receive emails regarding CEDA events and an annual email to ensure you wish to remain on the list. If at any time you would like to be removed from this mailing list please contact cheryl.honess@ice.org.uk or 020 7665 2238.
Speakers:

**ANDY BIRCHENOUGH**  
CEFAS/CEDA  
CEDA LIAISON GROUP FOR THE PROMOTION OF THE USE OF DREDGED MATERIAL

**NICK SMITH**  
BRITISH WATERWAYS/AINA  
PROMOTING THE SUSTAINABLE USE OF DREDGED MATERIAL FOR INLAND WATERWAYS

**Trazar Astley-Reid**  
SUFFOLK ESTUARIES OFFICER  
ISSUES AND CONSTRAINTS FROM A LOCAL PERSPECTIVE

**Colin Scott**  
ABPMer  
A REVIEW OF SUCCESSES AT WALLASEA AND LYMINGTON AND AN INTRODUCTION TO A NEW ONLINE DATABASE

**Roger Morris**  
BRIGHT ANGEL COASTAL CONSULTANTS LTD  
DREDGED SEDIMENT – A FUTURE PERSPECTIVE

**Aidan LonerGAN**  
RSPB  
NATURE IMPROVEMENT AREAS (NIAS) AND LANDSCAPE SCALE CONSERVATION

**Chairman**  
**Nicola Clay**  
HR WALLINGFORD
