

# DREDGING IN SCOTLAND A REVIEW AND LOOK-FORWARD

Tuesday 5th June 2018 at 14.00 -17:00hrs

**ABERDEEN MARITIME MUSEUM, SHIPROW, ABERDEEN AB11 5BY**

Ports and harbours in Scotland play a vital role in the country's economy through imports, exports, offshore energy, fishing and recreation.

CEDA are holding their spring seminar in Scotland and have brought together a distinguished panel of speakers to make presentations on behalf of ports, canals, regulators and developers on dredging and related topics. The presentations will primarily be Scotland-focused but will be informative for anyone with links to the dredging industry.

There will be a trip to the Aberdeen Harbour Expansion Project visitor centre from 10.30 – 13.00 to learn more about this major Scottish port development and to see the dredging and construction activity first-hand. A buffet lunch will be included. Numbers are limited so advanced booking is highly recommended.

Alternatively, free guided tours of the award-winning Aberdeen Maritime Museum are available from 12.00. The museum houses a unique collection covering shipbuilding, fast sailing ships, fishing and port history. It is the only place in the UK where you can see displays on the North Sea oil and gas industry. Advanced booking is required.

## Corporate Members of CEDA UK

**Speakers include:**

**Ton van de Sande, Van Oord** - Aberdeen Harbour Expansion Project

**Malcolm Rose, Marine Scotland Licensing Operations Team** - Licensing dredging and disposal in Scotland

**Alasdair Hamilton, Scottish Canals** - Management of dredging on Scottish canals

**Nick Kalle, Boskalis Westminster** - Peterhead North Harbour

**Graeme Duff, Envirocentre** - Best practice for pre-dredge sampling and considerations for advanced risk assessment

Chaired by **Katherine Harris, Harris Holden**, Committee Member of CEDA UK
