12 January 2022

Invitation to experts for expressions of interest to join the new permanent CEDA Commission on Decarbonisation (CCD)

The CEDA Board of Directors is to establish a new permanent technical Commission called the CEDA Commission on Decarbonisation (CCD), and they are seeking suitable experts to join in.

For your information, the draft Terms of Reference for the Commission can be downloaded separately from the CEDA website.

Interested CEDA members are kindly requested to notify Mieke van Loenen, ceda@dredging.org, **by 21 February 2022**. Please provide a brief curriculum vitae along with a brief description of relevant experience.

[Please note: the costs incurred in taking part in the Commission will have to be borne by the participating Member's company/organisation, and this should be taken into consideration when expressing interest.]

Appointment to the Commission will be confirmed by **1 March 2022** at the latest.

The newly formed Commission will have their first meeting on **23 March 2022** from 10.00-17.00 hours. We are aiming for a live meeting in Breda (DEME Offshore NL) with the possibility of attending by videoconference for those facing travel difficulties. The aim of the 1st meeting is to finalise the Draft Terms of Reference and to develop a Work Plan.

Best regards,

Mieke van Loenen
General Manager CEDA
