

EUROPORT CEDA Innovation Pitch talk

Date	Name corporate member	Country	Subject:	Speaker	
3-11-2021	13,00	Damen	NL	Innovation & Sustainability go Hand in Hand	Olivier Marcus
	13,15	Alia Instruments	NL	Innovative non-nuclear slurry density meter	Jan Peters
	13,30	Bakker Sliedrecht	NL	Online viscosity measurement	Remco Ammerlaan
	13,45	Break			
	14,00	Deltares	NL	Sustainable energy powerplants – your competitive edge	Ebi Meshkati
	14,15	Svasek Hydraulics	NL	Global Tide Forecasting in Shallow Water Regions.	Bas Les
	14,30	Holland Marine Technologies	NL	Innovations in TSHD loading- and screening- systems	Jan Willem de Wit
	14,45	Break			
	15,00	Amsterdam Shipyards	NL	Perfect climate for dredging	Marcel Boor
	15,15	Lagersmit	NL	Innovative rotating shaft sealing solutions for dredgers, the next step in performance and reliability	Jan Willem Bongers
	15,30	Vuyk Engineering	NL	Designing tomorrow's dredging assets	Erwin Put
	15,45	Break			
	16,00	Nortek/IMDC	NL	An example of high-resolution Signature VM backscatter data applied to dredge plumes	Herman Huitema (Nortek) en Jelle Malschaert (IMDC)
	16,15	Rijkswaterstaat	NL	Sealevel rise, consequences for the Dutch harbors and coastline	Pieter Jacobs
	16,30	Van Heck	NL	Moving water, any way you want it	Jeroen van Heck
16,45	Drinks				
4-11-2021	13,00	Royal IHC	NL	The LEAF hopper, a climate neutral vessel for the dredging industry.	Leonard den Boer
	13,15	Dutch Dredging Components	NL	Design and testing of high pressure floating discharge hoses.	Dick Knol
	13,30	Caterpillar	Germany	Power systems of the future, the Caterpillar Marine vision for the dredge industry	Marinus Jansen
	13,45	Break			
	14,00	TU Delft - Dredging Engineering	NL	Innovations in the field of deepsea mining	Cees van Rhee
	14,15	Royal Smals	NL	Innovative dredging project at Laggan Locks	Frits van den Boogaard
	14,30	VOSTA LMG	NL	Development of our new dredge pump line	Michael Rother
	14,45	Break			
	15,00	Aqua Vision	NL	Combined ADCP and EBP measurements - from surface to sub-bottom	Jeroen Aardoom
	15,15	HR Wallingford	UK	SHIPMOOR" – 21st Century tool for improving mooring safety	Thierry Rault
	15,30	Metalogenia	Spain	The newest innovations MTG is making in the field of wear parts for dredging equipment	Ana Cabezas
	15,45	Break			
	16,00	Wärtsilä	NL	Decarbonization and Fuel Flexibility, a possible future roadmap for Dredging	Dick Heidelberg
	16,15	iPS	NL	Staffing of major maritime construction projects in 2021	Sophie Horsten
	16,30	Geomil	NL	Enhanced data capture by means of seismic cone penetration testing	Ed Smit
16,45	Drinks				

CEDA Innovation Pitch Event

November 3 and 4

We can meet face to face again! This time we have organised a very special event. In close collaboration with our corporate members we would like to invite you to the “CEDA Europort Innovation Event”.

During two afternoons 24 companies will present their innovations in 15-minutes- pitch talks. You will be quickly updated on the innovations in the dredging industry and the vision of 24 leading companies.

The atmosphere will be informal with ample time for networking. Both afternoons start at 13.00 and end with a reception at 16.45.

The event will take place in Dock 15, above the main entrance of Ahoy/Europort.

Please find the program on the other side.
