Invitation to experts for expressions of interest to participate in the new WODA Working Group on Reservoir Dredging

The World Organisation of Dredging Associations – WODA - is to establish a new Working Group called the WODA Working Group on Reservoir Dredging (ResDred WG) and they are seeking suitable experts to join in.

For your information, the Terms of Reference for the Working Group can be downloaded from [here](#).

For reasons of efficiency, it is expected, that the major part of the work of the WG will be conducted in the digital space. The WG is encouraged to schedule their face-to-face meetings alongside regional conferences of WEDA, CEDA and EADA

Interested CEDA members are kindly requested to notify Anna Csiti, at the CEDA Secretariat, (csiti@dredging.org), **by 15 August 2020**. Please provide a brief curriculum vitae along with a brief description of relevant experience.

Appointment to the Working Group will be confirmed by **5 September 2020** the latest.

Please note: the costs incurred in taking part in the Working Group will have to be borne by the participating Member's company/organisation, and this should be taken into consideration when expressing an interest.

The newly formed Working Group will have their first meeting in the form of videoconferencing in September 2020, at which point the Terms of Reference will be finalised and a Work Plan will be developed.

Best regards,

Anna Csiti
General Manager CEDA
