

SITE VISIT DAMEN DREDGING

On behalf of Damen Dredging Equipment, YoungCEDA invites you to a site visit at their yard!
This yard specialises in the design, manufacture, and supply of highly efficient dredging equipment such as Cutter Suction Dredgers, DOP dredgers, Trailing Suction Pipe systems, and other dredging components.
Damen Dredging builds dredgers on stock that can be customized and assembled at short delivery times.

During this unique visit you will get the opportunity to take a peek into the high-tech world of Damen Dredging. Additionally it is an excellent occasion to meet other young professionals in the dredging industry!

- Programme
- 13:45 - Arrival
 - 14:00 - Presentation
 - 15:00 - Yard tour
 - 16:30 - Rooftop drinks

PPE

There is only a limited amount of PPE available at the yard. If you have your own, please bring: Shoes/boots and helmet

Transportation

The best way to get to the yard is by car. Don't have transportation and looking for carpool options? Let us know by email and indicate where you will be departing from.
Place for an extra passenger? Let us know as well!

REGISTRATION

CLICK ON THE LINK BELOW TO REGISTER BY EMAIL. PLEASE INDICATE "DAMEN".
